VOTE WILLIAM HUNT

FOR STATE REPRESENTATIVE

LOWER THE COST OF LIVING

Rhode Island has become an unaffordable place to live or to start a small business. Let's enact the line-item veto to provide meaningful oversight to the state budget. Cutting wasteful spending will provide relief to hard-working Rhode Islanders & retirees.

FIX OUR SCHOOLS

Parents should have much more choice in how their children are educated. Teachers should have the tools they need in a safe & clean environment. State government has failed to meet these basic standards. I'll fight so children have better education options.

PROTECT OUR COASTS

Continued state-sponsored overdevelopment of our coastlines puts our communities at risk and limits Rhode Islander's access to the shore. I will continue to fight to ensure that our coasts - and our local economy - are not restricted by politicians and special interests.
